

1.0 - Vision, Mission and Guiding Principles (January 2013)

Our Vision

Imagine. Innovate. Inspire.

Our Mission

Sikh Academy will strive to build a positive and caring child centered learning environment where staff, parents, and the community will work together and empower students to learn and gain confidence to meet the challenges in life.

At Sikh Academy we will strive for excellence in education and foster your child's academic success by creating a safe and caring environment. We will ensure that your child also learns the Sikh way of life and imbibes moral and spiritual values. With parents' involvement in their child's learning experience; we will work hard to make students responsible citizens who can make ethical decisions, and develop good social skills. In addition, we aim to involve our students within the community to teach them the responsibilities of becoming active citizens.

We take pride in the education of your child.

Vision, Mission and Guiding Principles

Sikh Academy's Guiding Principles are adapted from Surrey Schools, and aim to meet Sikh Academy's Mission Statement and Vision.

Guiding Principles:

Sikh Academy believes that:

- schools are for learners
- education is a shared responsibility among home, school and community.

Sikh Academy values:

- the achievement of success in teaching and learning
- the accomplishments of our learners
- the role of parents in the education of their children
- collaboration and cooperation in setting, achieving and evaluating our stated goals and making adjustments to practice based on results
- the contributions made by all employees, parents and the community
- the involvement and support of our diverse communities.

Sikh Academy seeks to:

- instill in learners an appreciation of learning as a lifelong process
- prepare each learner to assume responsible citizenship, community and career roles as adults in society.
